STATEMENTS SHOWING THE FINANCES AND RESOURCES OF THE UNITED STATES, THE SEVERAL STATES, AND THE CHIEF COUNTIES, CITIES, AND TOWNS IN THE COUNTRY, TOGETHER WITH DETAILED DESCRIPTIONS OF THE FUNDED DEBTS OF EACH, COMPILED FROM OFFICIAL INFORMATION SUPPLIED TO POOR'S MANUAL.

## UNITED STATES OF AMERICA.

**History of the National Debt.**—The treasury department was established in 1789, and about the same time the federal government assumed debts of the confederation and of the individual States, amounting to \$72,700,000. The first important loan was one of \$18,000,000, made in 1808, to provide for the purchase of Louisiana; another of \$10,000,000 was made in 1813, to meet the cost of the war of 1812. During President Jackson's administration in 1835, the entire public debt was paid off, and in 1836 the Government found itself in possession of over \$40,000,000. The depression of 1837-1842 and the Mexican war increased the debt to about \$79,000,000 in 1851. Shortly thereafter, however, treasury funds began to increase as the Government began to buy in its securities at a premium. By the acceptance of various offers to purchase bonds at different and heavy rates of premium, the debt was reduced to \$25,165,000. After the panic of 1857, the debt began to increase again, and by Jan. 1, 1861, it had reached \$32,757,689.571. The war of the rebellion added enormous sums to it, until on Sept. 1, 1865, it had reached \$64,593,571. The following table gives a complete list of the bonds and other securities of the rebellion:

## STATE OF ILLINOIS.

**History.**—In 1809 Illinois Territory was organized, comprising the present States of the Wisconsin, and part of Minnesota. On Dec. 3, 1818, under Act of April 18, 1818, Illinois was admitted to the Union. Area, 56,000 sq. miles. Pop. 1890, 3,826,351. For statement showing, by counties, population, etc., also State population, assessed valuation, etc., for several years, see previous issues of Manual.

**Bonded debt, Oct. 1, 1898.**—There are only \$18,500 bonds outstanding, but these have ceased to interest, having been called for payment but not presented. Bonds were issued as early as 1837, for improvements, etc., but they became such a drag on the credit of the State (default having been made in 1841 on the \$15,000,000 or so of them issued) that in 1848 a new constitution was framed which prohibited the creation of any future debt in excess of \$50,000, except in case of invasion or rebellion, and provided for the loaning of the credit of the State to any individual, association or corporation; also providing for the extinguishment of the debt by a special tax levy. By the constitution of 1870 the aggregate debt which could be raised ("to meet the casual deficits and failures of revenue") is increased to \$250,000.

**Illinois Central Railroad Fund—Report of Gross Earnings and Payments to the State.**—The charter of the Illinois Central RR. Co. exempts it from taxation, but requires it to pay to the State of 7 p. c. of the gross receipts of the original railroad, 705.50 m. (see General Index to the Manual of the Illinois Cent. RR. Co.). In the Manual for 1894 was published a statement showing the gross earnings of the road and the amounts paid into the State Treasury for each half year from Oct. 1, 1892, inclusive; the aggregate sum received by the State being \$13,175,352. The gross receipts of the road from Oct. 30, 1892, to April 30, 1898, inclusive, were \$54,385,044.64; the State's percentage (7) was \$3,423,233. Total paid the State to April 30, 1898, \$16,980,666.23.

Although the actual funded and guaranteed debt of the city is \$39,140,183, the taxpayers are called to provide interest only on \$25,578,800, of which over \$6,000,000 are in the sinking funds and on which the city pays interest to itself. Bonds are all registered and for \$100 or multiples thereof. All bonds are from State taxation, except Funding 6s of 1900; Jones Falls 6s of 1900; City Hall 6s of 1900 and 1902; Md. RR. 6s of 1902; W. Md. RR. 3½s of 1927; none of the bonds is liable for city taxes; holders of other are exempt on all issues. Total debt, \$39,140,183; annual interest charge paid by taxation, 1899, net, \$7,643. Ordinances authorizing the issue of stock provide for a tax levy for establishment and maintenance of a sinking fund for redemption of stock at maturity. Sinking fund and other productive assets listed, Dec. 31, 1899, to \$18,514,596, as follows: Sinking funds, \$6,212,077; value of water works, \$12,300,000; stock of turnpike companies, \$2,519, leaving the net debt, \$20,625,587; add authorized stock in treasury, \$21,929,664. The value of non-productive assets (city property, etc.) is \$20,660,307. Receipts for year 1899, \$10,861,923; expenditures, \$10,358,970; excess of receipts, \$502,953; cash on Dec. 31, 1898, \$408,128; cash on hand, Dec. 31, 1899, \$996,079. RR. 6s of Jan. 1, 1902; and \$4,300,000 3½ p. c. stock for refunding the following: \$1,000,000 City Hall 6s of March 15, 1900, \$800,000 Jones Falls 6s of April 9, 1900, \$800,000 Jones Falls April 9, 1900, \$483,000 Jones Falls 3.65s of April 9, 1900, \$160,000 Jones Falls 3½s of April 9, 1900, \$100,000 Falls 3s of April 9, 1900, and \$800,000 Funding 6s of July 1, 1900. The city's law officers having given an opinion that the mortgage offered by the W. M. RR. Co. did not protect the city in its prior claim to all of the assets of the company, and there seeming to exist a lien that the city's lien would be made junior and subservient to other liens by the phraseology of the W. M. RR. 18, 1898, the Board of Finance Commissioners decided, on Dec. 27, 1899, not to issue the W. M. RR. refunding 1900 stock for the present, and directed the City Register to purchase for the city any investment of the sinking funds any or all the 3d mortgage W. M. RR. bonds which should be offered, and to notify holders that in case they elected to hold the bonds the city would continue to pay on them until redeemed. Authority, J. Frank Supplee, City Registrar.

During the current fiscal year bonds to the amount of \$475,000 matured Jan. 1, 1900. These bonds were redeemed out of the revenue of the sinking fund accruing during the year 1899-1900, and out of an advance out of the treasury in anticipation of the revenue of the sinking fund for the year 1900-1901. The purchase bonds are payable in currency, all others in gold; issues marked \* are payable in sterling or U. S. gold. Interest payable as follows: On Park Bonds of 1905, at Nat. Sinking fund provisions: Under the charter the Assembly must appropriate \$1,200,000 annually to pay debt and interest thereon; the amount of the \$1,200,000 not required for interest constitutes the sinking fund for the redemption of the debt existing on April 7, 1890, and bonds issued in renewal thereon and for no other purpose. On the basis of renewing the city's debt for which the sinking fund was established, at 4 p. c., the debt will be extinguished in 1927. The sinking fund revenue accruing each year is used to redeem or purchase bonds. Under the charter the city cannot bond itself. The resources of the sinking fund for the fiscal year amounted to \$397,791, and were used in covering back into the treasury the amount advanced during 1898-1899, \$111,106, and the redemption of \$286,684 maturing bonds. The resources of the fund for the ensuing year will be \$421,591, of which \$189,315 will be required to cover back into the treasury the amount advanced for redemption of bonds in anticipation. Interest payable at Merchants' Exchange Nat. Bk.,  
 New York, N. Y. The Station House 4 1/2s of 1903-4,  
 and the Police Headquarters 4s of 1896 are in the  
 sinking fund. The City of J. C. 6s of 1904, the Fire  
 Eng. House 4s of Aug. 27, 1895, the ass't 5s,  
 the floating debt 6s, the maturing bonds, the differences,  
 etc., bonds, street and sewer ass't 5s, and the water  
 5s of 1913, 1916, 1922, and 1923, are secured by a  
 special sinking fund. The city's water works are  
 self-sustaining. By Act of the Legislature arrears  
 of taxes are made liens on property, and if not  
 paid within three years, the property can be sold to  
 satisfy them. As the land and buildings acquired  
 by the city during the past few years have not been  
 valued, the city's resources are not shown to be as  
 large as they would be with this "city property"  
 valued and added. The receipts from RR. tax  
 amount to about \$225,000 annually. Authority,  
 Robert S. Jordan, City Comptroller.

The water works income pays the interest on water bonds and sustains the water bond sinking fund. With these exceptions the care of the debt is a general charge on the city. The increase of bonded debt outstanding for the year 1899 was \$185,900, the total outstanding Dec. 31, 1898, being \$27,185,700. From preceding amount must be deducted the amount of street, pavement, and sewerage assessment improvement bonds held in the sinking fund, being \$1,045,129; Board of Education of the city of Cincinnati bonds held in the sinking fund being \$92,500, and cash on hand uninvested in sinking fund being \$687,514, making a total of \$1,825,143, leaving a net liability of \$25,546,456.

The American Exchange National Bank, New York, N. Y., and the Third National Bank, Cincinnati, O., are the authorized agents of the trustees of the sinking fund of Cincinnati, and all bonds and interest coupons will be paid by said banks when due. Interest on the several issues of Avondale bonds is payable at the Fourth National Bank, Cincinnati, O.; on Clifton issues at Ohio Valley National Bank of Cincinnati; on Linwood bonds, Riverside bonds, and Westwood bonds, place of payment not reported. No default ever made in payment of obligations. In March, 1900, an agreement was made by which the Board of Trustees of the Cincinnati Southern Ry. Co. will have until July 1, 1901, to extend the time of payment of the Cincinnati Southern Ry. Co. bonds; if the bonds are not refunded by that time the Sinking Fund trustees to undertake the refunding. Authority, Louis Carroll, Secretary of Trustees of the Sinking Fund.

\* Not fundable 20 years after date of maturity.

† Joint Resolution approved Dec. 22.

Interest on issues marked (a) is payable at the State Treasury, Columbia, S. C.; on those marked (b) at the State Treasury and also at the financial agency in New York; on those marked (c) at the State Treasury, at New York, and at Charleston; on those marked (d) at the financial agency in New York; on those marked (e) at New York, Columbia, S. C., and Charleston, S. C. The financial agency in New York is the National Park Bank; that at Charleston the South Carolina Loan and Trust Co.

The bonds and stock issued prior to 1867, including the valid part, 1st issue, of Interest Public Debt and valid part of the Conversion bonds, also the interest to July 1, 1893, are fundable at 50 p. c., and interest to July 1, 1893, in new  $4\frac{1}{2}$  p. c. bonds, authorized by act, 1892, and interest payable July 1, 1893. There are also valid bonds issued subsequent to 1866, which are fundable under the same or like terms.

The funded debt now recognized as valid is provided for by Acts of Dec., 1873, to reduce the volume of public debt, Dec. 24, 1878, for the funding of past due interest; Dec. 24, 1870, and Feb. 19, 1890, funding bills of Bank of State; and of March 22, 1878, for the funding of claims prior to Dec. 1, 1876. Bonds authorized by Acts of 1889 and 1890 were for the purpose of retiring the Brown consols before maturity, but owing to the rigid requirements of the act very little progress was made in exchanging.

All these were represented by consols Brown and Green (the latter containing some invalidity), and deficiency stock, the last fundable in Blue  $4\frac{1}{2}$  p. c. bonds. Under Act of 1892 Brown consols and valid parts of Green consols and interest as stated, fundable at par in new Brown  $4\frac{1}{2}$  p. c. bonds. Bonds for- fundable at 50 p. c. off in consols, now fundable in New Brown  $4\frac{1}{2}$  p. c. bonds.

The Act of Dec. 22, 1892, provided for the redemption of that part of the State debt known as the Consol bonds and stocks by issue of other bonds and stocks. These bonds bear interest at  $4\frac{1}{2}$  p. c. per annum from Jan. 1, 1893, payable on July 1 and Jan. 1, in currency, at the State Treasury, Columbia, S. C., the agencies of the State, viz.: at South Carolina Loan and Trust Co., Charleston, S. C., and at the National Park Bank, New York, N. Y. The principal of the coupon bond and stock certificates of this issue is payable at the end of 40 years from Jan. 1, 1893, the State reserving to itself the right of anticipation after the expiration of 20 years from date of issue, on the terms and conditions expressed or indorsed on the bonds and certificates. The coupon bonds and stock certificates are exchangeable, the one for the other on their presentation at the State Treasury, in Columbia, S. C. The bond and stock certificates of issue are free from all taxes, State, county and municipal, and are secured by a lien on the phosphate of the State and a cumulative sinking fund derived from the phosphate royalty. The sinking fund amounts annually to \$75,000, and is to be invested in these bonds if obtainable at a reasonable price. The debt is secured by levy on the taxable property of the State, and the interest coupons and the principal maturity are receivable for taxes due the State in same year except tax for the support of the public schools.

**Constitutional Limitations, etc.**—See Manual for 1896, page 1477.

Article 8, Sec. 7 of the State Constitution, ratified Dec. 4, 1895, provides that "No city or town in this State shall hereafter incur any bonded debt which, including existing bonded indebtedness, shall exceed 8 per centum of the assessed

The coupon bonds are free from city tax and the interest on them is payable at the City Treasurer's office. The coupons are receivable for taxes except water rates. The city's water works are valued at \$800,000, and the water works income is in excess of the interest on water bonds. Default was made on bonds prior to 1876 during the period of "reconstruction." The present bonds were issued to fund city debt. The city's power of creating debt is limited to one-eighth of the assessed valuation.

#### STATE OF SOUTH DAKOTA.

**History.**—See North Dakota. Admitted into the Union Nov. 2, 1889. Area, 76,850 sq. miles. Pop. 1880, 328,808; 1896, 330,975. Ass'd val., 1896, lands, \$73,684,037; town lots, \$15,906,621; P., \$20,434,837; RR's., \$583; telegraph, etc., \$232,078—total, \$119,391,156; 1897, \$120,175,431; 1898, \$118,580,491; 1899, \$130,111. For statement showing, by counties, the area, population (1890) and valuation (1893), as also assessed valuation, taxation, etc., of the State, see previous issues of the Manual.

**Tax Levy.**—Extract from the report of the State Auditor for 1895-96: "The provision for a two mills for general State purposes is not sufficient under our present system of assessment, and the amount of tax paid out on funding and revenue warrants annually is a constant reminder of this fault. The plan of levying a deficiency tax every second year is not a business-like proceeding, and the Legislature should submit to the people an amendment to the Constitution providing for a change in this direction. An act providing that not to exceed three mills per annum and no deficiency tax might be levied, except in case of extraordinary requirements, would place things in a much more satisfactory condition. It would save thousands of dollars annually, which now go East as interest to holders of revenue warrants." Tax for 1896: For general fund, 2 mills; special sinking fund, 0.1 mill; 1895 bonds, 0.1 mill; for bond interest and sinking fund, 1.8 mills.

In addition to the above regular interest-bearing bonded debt there are \$676,000 (annual interest, \$33,800) of interest-bearing bonds and certificates of indebtedness held by charitable and educational institutions. The certificates are for \$1,000 each, bear 5 and 6 p. c. interest, and are payable at pleasure of the holder. There are also about \$870,000 old bonds, not yet presented for funding under the Settlement Act of 1883, etc.

The Settlement bonds are for \$100 and \$1,000 each; int. payable at Treasurer's office, Nashville, and at office of Latham, Alexander & Co., New York City. Redemption and Penitentiary bonds \$1,000 each, interest payable at office of Latham, Alexander & Co., New York City.

By the Compromise and Funding Act of March 20, 1882, the State funded its old bonds, accrued interest, at 60 p. c. of the face value, in new 30-yr. bonds of 1882, bearing 3 p. c. for 2 years, for following 2 years, 5 p. c. for third 2 years, and 6 p. c. thereafter. In 1883 that act was repealed, and the debt funded in new 3s at 50 p. c. of the face value, except the old State debt proper bonds, bearing 6 and 5 p. c., which were exchanged for new bonds bearing 6 and 5 p. c. int., at 76, 79 and 80 p. c. respectively. By a decision of the Supreme Court of the State the Compromise bonds (principal and accrued interest to July 1, 1883) are fundable into new settlement 3s at five-sixths of their face value. E. B. Cray, Treas., Nashville, Tenn.

ng district was held by the courts liable

In 1896, the 6 p. c. bonds of 1913 were refunded and  
4½s issued. The law governing the city does not  
permit the creation of any debt of any kind other  
than the above, but requires \$1 on each \$1,000 of  
the annual taxes to be credited to a sinking fund for  
the redemption of the indebtedness. Interest payable  
Jan. and July, on Taxing District bonds, at First  
Nat. Bk. of New York, on Flippin Compromise bonds

to the conditions under which the tax levy is made,  
see Manual for 1896, page 1481. Beginning with  
1889, an annual sinking fund of 1 mill is levied, to  
be applied to the purchase and redemption of the  
bonds. An annual levy is also made to pay interest  
on the bonds. The present debt was created by  
funding the old bonded debt, and the then existing  
floating debt during the period from 1883 to 1887, at  
an average rate of 60.53 per cent. Authority, W. B.

These Riddleberger bonds were the only part of the debt not disputed. They are subject to call at any time after July 1, 1900. Interest payable Jan. and July, at Second Auditor's Office, Richmond, Va.

The Legislature, in 1895-96, passed an act, re-enacting the Funding Act of 1892, under the provisions of which all old Virginia bonds could be brought in and funded into new bonds of 1891, on the same terms as those given for that act (see above), thus making coupon and registered bonds interchangeable. The Virginia State Sinking Fund Commission is authorized by the Legislature to invest the surplus of the sinking fund from time to time in bonds of 1891 or Virginia 3 p. c. to the extent of \$100,000 per month. The Act of 1892 expired by limitation Dec. 31, 1896. By Act of Jan. 25, 1898, bondholders were given until Jan. 1, 1898, to accept the terms stated above and power was given the Commissioners of the Sinking Fund to make the time till Dec. 31, 1898.

**West Virginia Certificates.**—The State of Virginia, in the readjustment of its debt in 1871, provided for one-third, or \$15,239,370 funded certificates, as West Virginia's share. This obligation West Virginia has not met, and the matter remains at present unadjusted.

On July 28, 1898, an agreement was entered into between certain holders of the Virginia Deferred Certificates, whereby a committee consisting of John Crosby Brown, J. Kennedy Tod, George Coppel and C. C. Cary, was appointed to provide a plan for the settlement and payment of such certificates as might be tendered under the agreement. The Assembly of Virginia (by Act approved March 16, 1900) authorized the Sinking Fund Commission to enter into a contract with this committee to effect a settlement. On June 13, 1900, \$1,000,000 of Brown Bros. & Co.'s certificates of deposit of Va. Deferred Certificates (issue of 1871) were listed on the New York Stock Exchange.

certificates of indebtedness are authorized to the amount of \$6,000,000, the remaining \$1,000,000 being for the general purposes of the company. The certificates are irredeemable, save that they rank as a first lien on the company in preference to its capital stock only. Interest is payable semi-annually, the first interest being made on Dec. 1, 1897. The rate is not to exceed 2½ p. c. semi-annually, to be paid in each half year and to be non-cumulative; such interest to take precedence of dividends on the stock. The certificates are issued in denominations of \$100 and multiples thereof. They are in registered form and are transferable on the books of the company when an assignment is endorsed thereon. It is provided that no mortgage can be made on the company's property without the consent of at least a majority of the certificates then outstanding, given at the meeting of the stockholders at which the mortgage may be authorized, certificate holders to have the right of casting one vote for every \$100 of certificates held by them. It is also provided that in case of any such mortgage being authorized the holders of certificates of indebtedness are to have the option of exchanging these at par in lots of \$1,000 or more for the bonds or other evidences of indebtedness secured by such mortgage, it being required that the company shall be notified within sixty days after the date of the meeting at which the mortgage is authorized, of any desire to make such an exchange.

On June 13, 1900, there were listed on the New York Stock Exchange \$1,250,000 additional general 4 p. c. gold coupon bonds (Nos. 26,070 to 27,319, inclusive), making the total amount listed on that date \$7, and authority was given for the listing of an additional \$1,500,000 of the same issue, making the total amount of bonds, including such additional issue, \$28,809,000. Of such bonds, \$2,000,000 have been drawn out for use in construction and acquisition of additional property, as provided in the mortgage. The proceeds of the \$2,000,000 bonds referred to in this company's application to the New York Stock Exchange for listing under date of 1899, have been expended in the acquisition of the Ohio River and Charleston Ry. of Ky.; the construction of a second grain elevator, and the additional piers at Newport News; the branch line in West Virginia; the construction of improvements through Richmond, and the acquisition of ocean tugs and barges for coal transport. The \$2,000,000 bonds are required to complete this work. Of such bonds, \$750,000 have been drawn out for the purpose of defraying the actual cost of the second tracking now in progress, as provided in the mortgage. The proceeds of the \$500,000 bonds referred to in the application of the company to the New York Stock Exchange under date of Aug. 8, 1899, have been expended for the purpose of paying the actual cost of double tracking, and \$2,000,000 bonds are needed to complete 50 miles of such double tracking. In no event can bonds be used in excess of an average of \$25,000 per mile for such second track.

At a special meeting in Oct., 1899, a mortgage for \$1,000,000 4 p. c. gold bonds to provide the means for opening a line up Greenbrier River was authorized. No bonds have been issued, and none probably will be, as the board of directors are considering the cancellation of the mortgage.

# THE OFFICIAL GUIDE

of the Railways and Steam Navigation Lines in the  
United States, Porto Rico, Canada, Mexico and Cuba

*The Standard Reference Book used by all railway officials* for business acted between the several companies. The Lists of Officers and other information are dated up to the date of each monthly issue.

The Editorial Department, in addition to general railway information, contains a highly synopsis of the Proceedings of the Interstate Commerce Commission.

The Time Tables published in its columns are compiled directly from the Official Time Tables which are used by the employes, and from information furnished by the Officers in the Time Table Department of the several roads.

It contains, in addition to the Lists of Officers and their addresses, which are published at the head of the Time Tables, an Official List of the Officers in charge of General Passenger Department, with the names of the parties to whom remittances and on whom drafts for settlement of such accounts should be made; the Official List of Designating Numbers used on the several transportation lines and used by the Passenger and Accounting Departments; an Official List of Purchasing Agents, with their addresses; a list of General Agents; a list of Railway Commissions of the various States, Traffic Associations, Officers, etc.; also a table showing the Mileage of each road, and the Sleeping Car and Express Company operating over each.

*The Index of Railway Stations* contains the names of every railroad station in the United States, Canada and Mexico, with the State and the railroad on which they are located, corrected monthly. There is also a list of old and new names of stations, the names of which have been recently changed.

The standard of time by which each road is run is noticed at the head of each table, and in addition to this, a page is devoted to a table of the names of the roads running by the several standards. Upon the front page of the cover of the OFFICIAL GUIDE is a diagram showing the standards of time in use in the principal cities.

A large number of fine Sectional Maps, showing the lines of the several roads, appear throughout the book. Also a new dissected map, corrected to date, covering the whole United States, Canada, and Mexico (north of Vera Cruz). A full list of all names by which various railroads in the country have formerly been known, with their present official names, is also a feature. The gauge of each road is shown. Morning trains are distinguished from afternoon trains by varying the style of type.

Also Maps, Time Tables, and list of Offices of Railroad and Steamship Lines in **USA and PORTO RICO.**

For sale at all prominent News-stands and on Railway Trains. Subscription price \$1.00 per annum. Single copies, 50 cents.

## TWENTY-TWO YEARS OF PROTECTION

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of the Union; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally puts an end to the period of Restoration, he so far has been unable to undo its distinctive feature.—a return to the protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title, "Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.
